

LPG REDUCER MODEL AT09 NORDIC

REDUCER FOR SEQUENTIAL INJECTION SYSTEMS WITH INTEGRATED FILTER

The **AT09 Nordic** reducers, the latest evolution of the AT09 sequential reducers family, has been designed with the aim of further improving the performance compared to the other reducers of the AT09 family, Alaska and Artic, thanks to the improved heating circuit and the higher support engines power, up to 125kW.

This reducer differs on the integral body, the complete separation of the water and gas circuits, the improved gas circuit and the deeper water circuit, which allows a better heat exchange.

AT09 Nordic maintenance kit: [RGAT2085V](#)

SKU: RGAT3890V

PRODUCT DESCRIPTION

VERSION

NORDIC

| | |
|--------------------|-------------------------------|
| Type of product | LPG sequential reducer |
| Material | Die cast aluminium body |
| Weight | 1.30 kg |
| Dimensions (mm) | 125x125x105 mm |
| Max inlet pressure | 3 MPa (30 bar) |
| Outlet pressure * | adjustable from 90 to 180 kPa |
| Coil voltage | 12 V DC |
| Coil power | 11 W |
| Coil connection | Fast-on (AMP upon request) |
| Inlet connection | M10x1 pipe Ø 6 mm |
| Outlet connection | Fixed fitting Ø 12 mm |
| Engine power | up to 125 kW |

* referred to the MAP
