

Service Additives – Petrol System

Version: SA5/02

Valvoline™ Petrol System Protector

High performance additive for all petrol engines. Cleans and protects all components having contact with fuel. Safeguards technical reliable and economic operation.

Applications

Suitable for all petrol engines in passenger cars with or without catalytic exhaust gas converters. Especially for Direct Injected petrol engines.

Apply at every engine service:

- To prevent high fuel consumption
- To prevent poor engine performance
- When poor fuel quality is suspected
- When E10 Fuel is used

Operating instructions

Add the content of the metal bottle (300 ml) to the fuel tank.

Suitable for up to 60 liters of petrol.

Fuel amount should at least match the reserve volume.

Features & Benefits

Keeps the fuel system clean

Effectively cleans all components of the fuel system that come in contact with fuel, e.g. fuel lines, injectors, cylinders, combustion chambers and spark plugs. It prevents the build-up of harmful deposits inside the engine.

Effective corrosion protection

Special inhibitors prevent corrosion inside the fuel system.

Reduction of harmful emissions

The level of NO₂ emissions are effectively reduced.

Prevents high fuel consumption

A clean fuel system results in optimal engine performance and fuel consumption.

Extends emission control system service life

Catalytic converter and lambda sensors are kept in good condition thanks to optimal combustion.

Easy to use

Application through simply adding it to the petrol. No specialist tools or equipment required.

PRODUCT INFORMATION

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

For more information on Valvoline products, programs and services please visit www.valvolineeurope.com

Typical properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

Petrol System Protector	
Appearance	Colorless
Specific Gravity @ 20°C	0,790
Flash Point, °C	< 25

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://msds.valvoline.com>

Protect the environment

Take used chemical to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. Keep container tightly closed and stored in a cool, dry and well ventilated place. Products should be stored inside and do not exposed to direct sunlight and high temperatures. Avoid freezing conditions.
